How to read this plan

A quick outline of the public information a small drive team needs for this move. It does not replace the advance drive: the team drives the routes, checks them and decides. Work through the checklist on page 14 before the move.

1. Information needed to build this plan

Required	
Locations	Start, each stop in order, and the end.
Date	The day of the move.
Departure time	When the principal leaves the start.

Optional, with the default if left blank	
Principal code name	ATLAS (never the real name).
Number of cars	1.
Routes per leg	3. Or 2 if you ask.
Greeter at the event site	None.
Time at each stop	1 hour.
Risk level	Medium. For reviewers only.

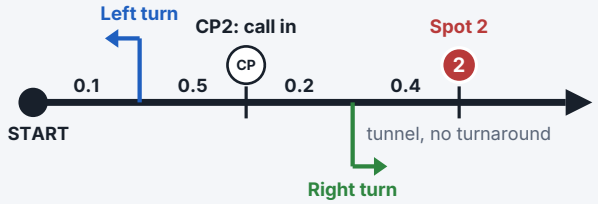

2. Symbols

- **Blue line:** primary route.
- **Amber line:** alternate route (teal: second alternate).
- **Red number:** predictable spot.
- **CP1 to CP3:** checkpoint calls.
- **Numbered circle:** a stop.
- **Red cross:** trauma center.
- **Blue shield:** police.
- **Orange flame:** fire station.
- **Green house:** secure lobby.
- **Amber triangle:** watch-out.
- **Purple ticket:** event or crowd.
- On stop photos: **D** car stops, **B** backup, **R** rally.

3. Key terms

Leg	One drive from one place to the next.
Primary / alternates	The planned route, and two more on different roads.
Predictable spot	A place we must pass at a known time, like a curb.
Choke point	No way out, like a tunnel or one-way block.
If blocked, go	Where to go if a spot is blocked. Decided now.
Backup point	A second curb if the planned one is blocked.
Rally point	Where everyone meets if separated or comms fail.
Safe haven	Police, fire, hospital or a staffed lobby nearby.
Recon to confirm	Not visible on a map. Check it on the drive.
Hand-off	Drive team owns route and curb; site advance owns past the door.

4. How to read a strip map

Drive left to right. **Above the line = left turn. Below the line = right turn.** A tick on the line is a straight-on event like a tunnel or merge. Numbers on the line are miles between turns. Not to scale. **QR codes** say what they open. Each strip page's route code opens that route in Google Maps; the app may reroute in traffic.

5. Verdicts

- **GREEN** — **Go as planned.** Nothing public found that should change the plan.
- **AMBER** — **Go, with the notes.** Something public could slow or crowd you: an event, a closure, one way in, a tight closing time, weather.
- **RED** — **The team's call only.** After the advance drive, the team marks a leg or stop red if it should not be driven as written. This plan never sets red.

Every leg and stop gets green or amber with its reason, from public data. The worst one sets the overall verdict.

DRIVE TEAM PACKET

Route advance: Willard to The Anthem to Fiola Mare and back

Made-up trip built to test the skill. Places are real and public; map data read Nov 9 and 10, 2026.

General info

Principal	ATLAS (code name)	**Routes per leg**	2
Date	Friday, Nov 20, 2026	**Greeter at the event site**	Yes, the site advance person at The Anthem
Departs	5:30 PM Eastern	**Risk level**	Medium (default). For reviewers; the plan is the same at any level.

Weather and watch-outs

AccuWeather | Washington DC (Ellipse)

FRI 11/20 — 56° 40°

NORMAL FOR THE DATE, NOT A FORECAST

Sunset 4:51 PM — Dark 5:19 PM

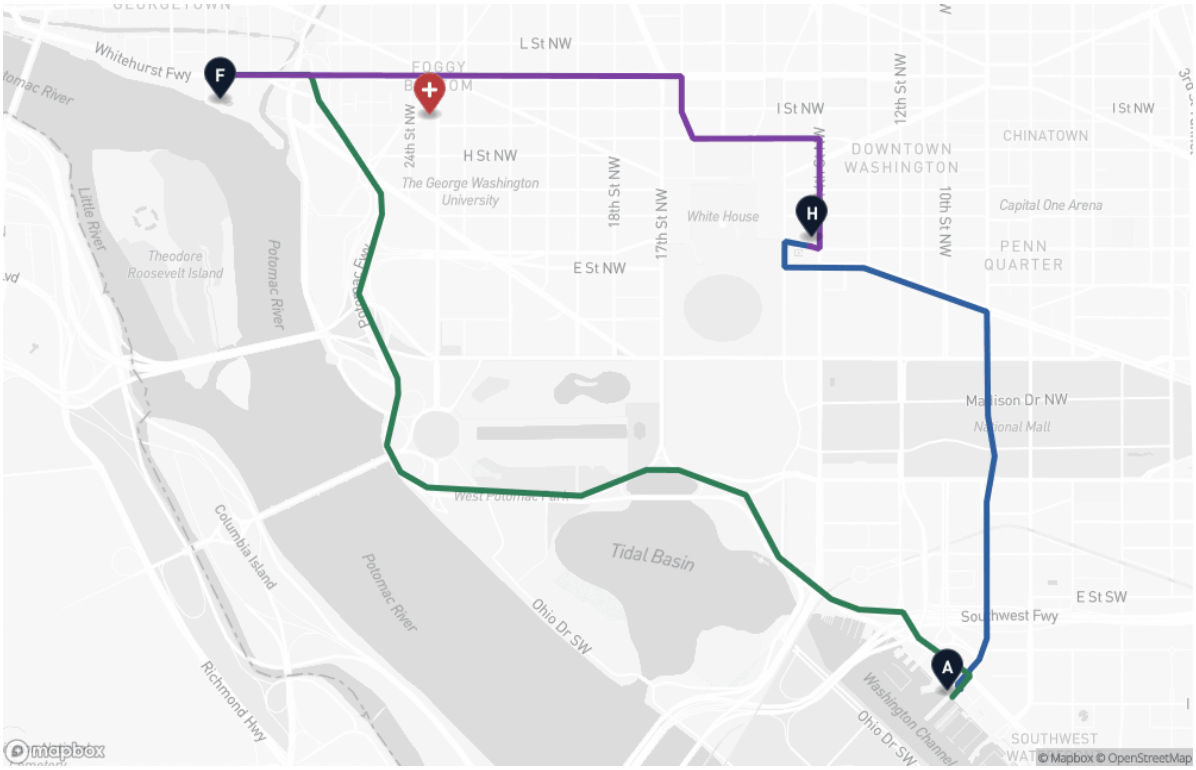

Rain chance and amount: not out yet. Nov 20 enters the 10-day forecast about Nov 11; recheck then and on the day.

Impact: all three legs run after dark. Lit curbs, flashlight, cold-weather layer for the principal.

- **Concert at The Anthem, 8 PM.** Crowd at our pick-up.
- **Fiola Mare closes 10:30 PM.** We leave at 10:15.
- **One way in and out at Washington Harbour.** Both routes use K St.
- **White House security zone** next to the Willard. Closures with little notice.

RECON, DAY-OF AND COMMS

Checklist before the move

Drive it on a Friday evening between 5:30 and 10:30 PM, like the move: about 1.5 hours for every route and the hospital runs. Log it on the next page.

1. Recon drive

- ☐ **Willard:** Can a car stand at point D at 5:25 PM and 10:30 PM? F St door open late. JW Marriott lobby open as the rally point.
- ☐ **15th St and Penn Ave:** Open, or closed for White House security. Fallback via 9th St.
- ☐ **9th St Expressway tunnel (spot 2):** Open and clear. Time it.
- ☐ **14th St SW to Maine Ave:** Which ramp the listed bridge closure affects.
- ☐ **The Anthem:** How close a car gets to the door at 5:45 PM. Parking entrance and exit. InterContinental lobby as backup and rally point.
- ☐ **The Anthem at 8:00 PM:** Crowd and rideshare queue at show time (go on a show night if possible).
- ☐ **Potomac Freeway and Rock Creek Pkwy:** Roadworks status. Exits.
- ☐ **Washington Harbour (spots 1 and 2):** Garage entrance. Walk from K St to the door. Drive M St to 31st St as the fallback. Ritz-Carlton lobby open late.
- ☐ **George Washington University Hospital:** Drive the run from each stop. Mark the ER door and where to stop.

2. Day before and day of

- ☐ Day before: re-drive anything that changed, and re-run the events check (page 3).
- ☐ 30 minutes before each departure: closures, traffic, local news, White House area closures.
- ☐ Forecast that morning and again at 4 PM. Concert time at The Anthem and Fiola Mare's hours.
- ☐ Fuel full, phone charged, packet on the driver's phone. Site advance in place at The Anthem by 5:30 PM.

3. Comms

- ☐ Code words agreed: Scenic = alternate route. Coffee stop = safe haven. Early night = hospital. Rain check = cancel the next stop.
- ☐ Comms down briefed: no contact for 5 minutes, go to the stop's rally point. Phones down, wait there 15 minutes, then back to the Willard.
- ☐ Site advance gives the driver a 10-minute call before each departure, and any change of exit door.
- ☐ Packet sent only to people on the move, by an encrypted app.

4. How sure are we

Verified (Nov 9 and 10): addresses and stopping points (Mapbox, TomTom); routes, times and hospital turns (Mapbox, TomTom); closures (TomTom); trauma levels (hospital sites); Fiola Mare hours (TomTom); events (venue sites and listings); sunset (calculated).
Estimated: drive times on Nov 20; crowd size; station hours marked "per listing".
Not checked: doors, garage entrances, curb rules, ER door and rally point lobby hours (recon); weather (out of range).
